

TENTERDEN
Green Space
GOING

GOING
GONE

Saturday 29th September, at 11.00am

Please come to the presentation in the Town Hall to tell you more about Local Green Space designation in Tenterden and the sites now most at risk.

Do YOU value your Local Green Space?

- Somewhere to walk your dog, to breathe clean air and listen to the birds?
A refuge for endangered wildlife? Somewhere green and natural to refresh the spirit?
These areas are cherished in our community.

But they will all be gone if developers are allowed to have their way!

- Agreed development involving more than 600 new homes is already underway, all on greenfield sites, with numbers likely to rise much further.
- Of the remaining 8 green spaces closest to the town centre, 6 could be built on in the next few years!

Are we powerless to stop this? Not at all!

- We can create a 'Local Green Space' designation to offer legal protection from development to the spaces dearest to us.
- We have already formed a group in Tenterden to save our green space – but can only do it with your full support.

Please come and have your say and help us stop this bid to concrete over everything we love about this community.

HELP US SAVE YOUR PRECIOUS GREEN SPACE!
