### **TGS Neighbourhood Plan road-map**

Following introductions, freelance Community Planner Jim Boot presented for general discussion a sequential 'road-map' for a targeted Local Green Space Neighbourhood Plan for Tenterden, as previously submitted to all Town Councillors.

Richard read out Simon Cole's\* comments on the subject.

### **Work of the TGS steering group, May-Nov. 2018**

In this final meeting of the steering group, Richard outlined and the meeting discussed work undertaken by the Group over a six month period – including evaluation of a number of local sites for potential statutory Local Green Space designation, the presentation to town residents on September 29<sup>th</sup>, and discussion with Simon Cole regarding a unique Neighbourhood Plan for Tenterden.

The initiative is to be discussed further in a Town Council planning meeting on December 10<sup>th</sup>.

### **SPD Strategic Space Plan**

Work of the Town Council's sub-committee was discussed. It was suggested that with a wider scope, work on the Strategic Space Plan might continue alongside and in harmony with a targeted Neighbourhood Plan for Tenterden if that was to be undertaken.
