

TDRA AGM 2023

Membership Secretary's Report

As at March 2022 we reported membership of 281 households with 425 individual members. In the year to March 2022 we chose to chase up outstanding donations in the summer. However in the latest year, without any real need for funds, the Committee decided not to repeat the chasing exercise.

Whilst this resulted in a reduction of households donating (220 as against 281) we have taken the view that effectively some members have had a one year "holiday" from donations. Thus we regard the membership totals as 281 households with 425 members as at March 2023.

The Committee Report refers to a desire to increase our membership in the forthcoming year; members will be pleased to see we have a nominee standing to fill the vacant Membership Secretary position at the May AGM.
